Visual Communication Aids

Minor traffic stops can be confusing and time-confusing ordeals for both law enforcement officers and the parties stopped when the person pulled over for a violation does not speak or read English. CommuniCard visual communication aids, that include pictures for those who do not read or who do not speak English or Spanish, are being offered by CommuniCard LLC. The Police Traffic Stop CommuniCard offers an efficient, easy-to-use solution. The Police Traffic CommuniCard is a pocket-sized guide used to communicate common traffic issues such as “May I see your ID and insurance?” and “You exceeded the speed limit.” The pictures do the talking with the simple, proven point-and-do concept.
